

FIELD CARD USE • FC-001 • p.1/2

[ Make notes • Make it yours >> ]

Not perfect. Usable.

This overview field card is a rep — a quick sample of what it is like to have a field card on hand.

Print it. Cut/Fold it. Carry it. Mark it up.

Ignore parts. Return later.

Some cards fit and get traction immediately.

Others fit later.

That is normal. Small reps. Repeated returns.

Your notes ^^

Small practical tools for:

- noticing • resetting • orienting • calibrating
- useful next steps • your operating context

Try and explore:

- carry one or a few • revisit later • rotate cards • test what helps

No big performance required.

Personalize them. Operationalize them.

Practical awareness. Useful guidance. In motion.

ROTATE • REVISE • RETURN
